

EXPRO HUB

Quick Guide

Getting Started!

IMPORTANT:
Read the enclosed
Safety Information
before use.

INSTALLATION

- Place your EXPRO HUB in the designated location in the store.
- Connect the power cable to an electrical outlet and wait for the display to start.
- Stabilize the unit by adjusting the front leveling feet.

Connect the container with protection fluid

- Open the service hatch (the lower section on the front of the unit).
- Connect the unit's nozzle to the container with protection fluid.
- Connect the drain hose to the empty container.
- Close the service hatch.
- Run three optional programs to pump fluid through the machine.

EXPRO HUB is now ready to use!

HOW TO USE EXPRO HUB

1. Press "Select Treatment" on the display.
2. Place the shoes in the EXPRO HUB according to the markings.
3. Close the door and press "Next."
4. Select the desired program and press "Start."
5. Remove the shoes when the display indicates "Finished."
6. Wipe off any excess liquid from the shoes with a cloth.
7. Wipe the inside of the EXPRO HUB after each treatment.

MAINTENANCE

- EXPRO HUB requires minimal maintenance and has a self-cleaning nozzle. If necessary, clean using lukewarm water.
- The unit must always be connected to power and network to enable ongoing system updates.
- When the fluid level is low, an indication will appear on the display and new fluid will be ordered automatically.

PROTECTION THAT MAKES A DIFFERENCE

Offer your customers high-performance and durable protection in less than a minute, directly at the time of purchase, with the EXPRO HUB service.

- For the customer, it provides effective protection against moisture and dirt, and shoes that last longer.
- For your store, EXPRO HUB is a smooth and easy-to-use service that creates significant customer value and enhances the overall buying experience.

EXPRO HUB is developed to operate in fast-paced retail environments. The service is quick, consistent, and reliable, with clear customer benefits and a strong focus on sustainability. The treatment is gentle and fragrance-free, ensuring a safe and comfortable working environment.
